DETAILED ACTION

The amendment filed January 16, 2007 and the remarks presented therewith have been carefully considered. However, they are not deemed to be fully persuasive.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 22-25, 29, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 22 and 24 are confusing in that in their second lines they refer to "said pick and place confirming sensor", but claim 21 (from which they both ultimately depend) sets forth a *plurality* of pick and place confirming sensors. Thus, it is unclear whether claims 22 and 24 are attempting to claim the limitations of one of the plurality of sensors or if each of the sensors of the plurality contains the recited limitations. Similarly, in claims 23-25, 29, and 30, there are several instances of a recitation of a singular element (e.g. nozzle, passage) that contradicts claim 21 that recites a plurality of such elements. Applicants should carefully review each of these claims and amend accordingly in order to remain consistent.

In claim 29, lines 1 and 2, the phrase "wherein said pick and place nozzle wherein" is confusing.

In claim 30, line 3, it appears that the word "and" should be deleted in order to make better grammatical sense of the sentence.

Allowable Subject Matter

3. Claim 21 is allowed.
4. Claims 22-25, 29, and 30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Information Disclosure Statement

5. The second reference (JP 07-314371) listed on the IDS filed 10/18/06 has been lined through because this reference had already been listed and considered on an earlier filed IDS dated 12/3/04.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
